

▶ ▶ ▶ **Rethinking Nutrient Delivery**

We develop and manufacture EncapsWell™ liposomal ingredients and customized formulations designed to outperform conventional delivery systems while remaining scalable, compliant, and market-ready. From concept to commercialization, EmerWell supports partners every step of the way.

Why EmerWell

- Bioavailability-first research approach
- Faster time-to-market (samples in 2–5 weeks)
- Risk-free formulation optimization
- Global manufacturing scale with U.S.-based support
- Sustainability-focused, clean-label approach

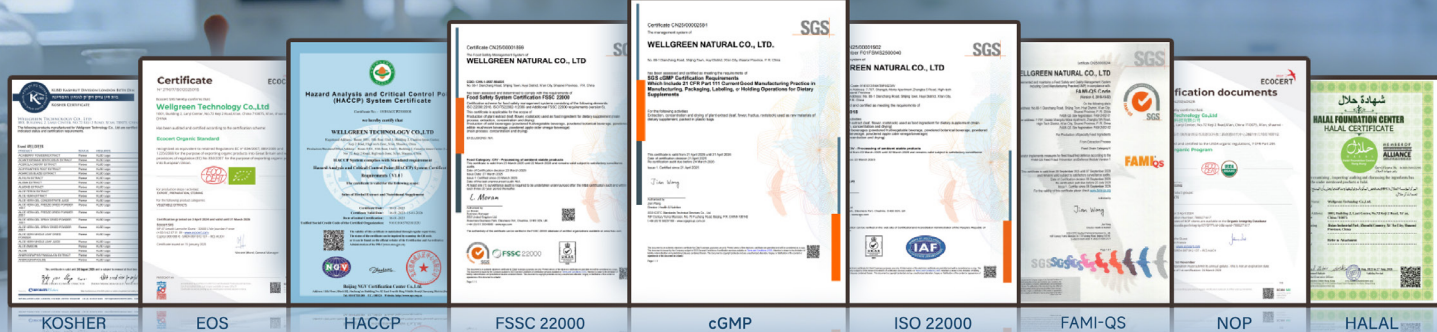

Core Capabilities

EncapsWell™ Liposomal Technology

- EncapsWell™ Multiscale Systems
- High-precision molecular encapsulation targets
- Exceptional absorption kinetics over conventional delivery formats

OEM / ODM
Custom Formulation

Let's Build Your Next Liposomal Product

Featured Liposomal Products

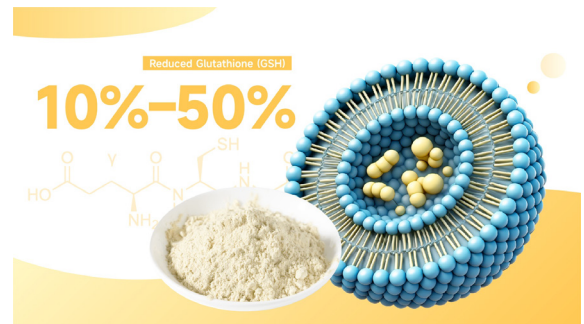

EncapsWell™ Liposomal Vitamin C

- Superior bioavailability vs. standard ascorbic acid
- Highly dispersible, water-compatible powder
- Ideal for capsules, drink mixes, and stick packs

EncapsWell™ Liposomal Glutathione

- Superior Bioavailability
- Odorous Masking
- Cellular Detoxification

EncapsWell™ Liposomal Nicotinamide Adenine Dinucleotide (NAD+)

- Direct Cellular Delivery
- Anti-Aging Powerhouse
- Enhanced Stability

EncapsWell™ Liposomal Resveratrol

- Solubility Breakthrough
- Metabolic Synergy
- Comprehensive Wellness

EncapsWell™ Liposomal NMN

- Optimized Absorption
- Precision Stability
- Ready-to-Mix Versatility

EncapsWell™ Liposomal Coenzyme Q10

- Water-Compatible Format
- 3-5x Higher Bioavailability
- Mitochondrial Support

EncapsWell™ Encapsulated Omega-3

- Zero Fishy Reflux
- Ultimate Oxidative Shield
- Bile-Independent Absorption

One Formula, Infinite Forms

Multifaceted dosages: capsules, softgels, tablets

Core Tech: Fine Powder Control

Customizable consistency & color (pale yellow-white)

End-to-End Excellence

Seamless integration, superior absorption for beverages

LIPOSOMAL INGREDIENT SOLUTIONS
Custom Particle & Payload Control
